

Draw an angle — To the nearest five degrees

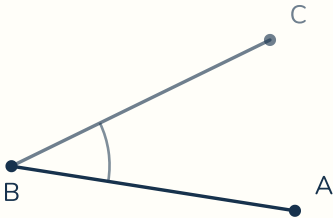

Name: _____

Date: _____

Draw each angle above the ray from B, and mark the angle you drew.

1 Draw angle $ABC = 35^\circ$, with C above BA.

2 Draw angle $ABC = 50^\circ$, with C above BA.

3 Draw angle $ABC = 160^\circ$, with C above BA.

4 Draw angle $ABC = 65^\circ$, with C above BA.

Draw an angle · To the nearest five degrees — Answer key

1. Draw angle $ABC = 35^\circ$, with C above BA. The second arm is 35° from BA.
2. Draw angle $ABC = 50^\circ$, with C above BA. The second arm is 50° from BA.
3. Draw angle $ABC = 160^\circ$, with C above BA. The second arm is 160° from BA.
4. Draw angle $ABC = 65^\circ$, with C above BA. The second arm is 65° from BA.
