

Histograms — Intervals of 10

Name: _____

Date: _____

Read each histogram and answer the question.

- 1 How many children were measured altogether?

- 2 How many children are in the 20–29 interval?

- 3 Which interval holds the most?

- 4 Which interval holds the most?

- 5 How many readers are in the 60–69 interval?

- 6 How many readers were measured altogether?

Histograms · Intervals of 10 — Answer key

1. $8 + 9 + 5 + 5 + 1 = 28$

2. $20-29 — 8$

3. $30-39 — 9$, the tallest bar

4. $70-79 — 6$, the tallest bar

5. $60-69 — 3$

6. $3 + 6 + 3 + 3 + 2 = 17$
