

Slope and y-intercept — Slope from an equation

Name: _____

Date: _____

Write the slope of each line.

1 $y = 11x$ $m =$ _____

2 $y = 12x + 1$ $m =$ _____

3 $y = -19$ $m =$ _____

4 $y = -11x + 25$ $m =$ _____

5 $y = -9x + 10$ $m =$ _____

6 $y = -8$ $m =$ _____

Slope and y-intercept · Slope from an equation — Answer key

1. $y = 11x \rightarrow m = 11$

2. $y = 12x + 1 \rightarrow m = 12$

3. $y = -19 \rightarrow m = 0$

4. $y = -11x + 25 \rightarrow m = -11$

5. $y = -9x + 10 \rightarrow m = -9$

6. $y = -8 \rightarrow m = 0$
