

Decimals

Name: _____

Date: _____

Read each problem. Write the answer.

- 1 Priya bought a ticket for \$14.32 and a apple for \$1.56.

How much did Priya spend in all? ____

- 2 Noah had \$8.68 and spent \$7.24 on a ticket.

How much money does Noah have left? ____

- 3 Maya bought a marker for \$14.28 and a notebook for \$13.28.

How much did Maya spend in all? ____

- 4 Ana had \$19.18 and spent \$17.21 on a sandwich.

How much money does Ana have left? ____

Answer key

1. $\$14.32 + \$1.56 = \$15.88$

2. $\$8.68 - \$7.24 = \$1.44$

3. $\$14.28 + \$13.28 = \$27.56$

4. $\$19.18 - \$17.21 = \$1.97$
