

Word problems — Mixed operations

Name: _____

Date: _____

Read each problem. Write the answer.

- 1 Lucia baked 26 croissants along with 3 cupcakes near the bakery counter, then 20 more croissants.

How many croissants does Lucia have now? $26 + 20 = 46$ croissants

- 2 Lucia has 42 cookies, which is 6 times as many as Dev has. Lucia also keeps 4 cupcakes.

How many cookies does Dev have? ____

- 3 Kwame has 35 cupcakes and Marian has 15. Kwame also keeps 4 cookies.

How many cupcakes do they have altogether? ____

- 4 Kwame counted 59 cookies at first and packed away some. In the end, Kwame kept 3 cookies. Kwame also has 2 croissants.

How many cookies did Kwame pack away? ____

Word problems · Mixed operations — Answer key

1. $26 + 20 = 46$ croissants

2. $42 \div 6 = 7$ cookies

3. $35 + 15 = 50$ cupcakes

4. $59 - 3 = 56$ cookies
