

Mixed operations

Name: _____

Date: _____

Read each problem. Write the answer.

- 1 Jordan started with 14 folders. After collecting some more, Jordan had 20 folders.
How many folders did Jordan collect? ____

- 2 Jordan filled 4 boxes with 4 books in each.
How many books does Jordan have in all? ____

- 3 Priya packed 21 folders into crates of 7.
How many crates did Priya fill? ____

- 4 Maya ordered 34 tickets near the library, then ordered 26 more.
How many tickets does Maya have now? ____

Answer key

1. $20 - 14 = 6$ folders

2. $4 \times 4 = 16$ books

3. $21 \div 7 = 3$ crates

4. $34 + 26 = 60$ tickets
