

Reasoning — Odd one out

Name: _____

Date: _____

Read each question and write what you work out.

1 Which number is the odd one out?

12

25

98

72

Why?

2 Which number is the odd one out?

17

29

73

9

Why?

3 Which number is the odd one out?

72

32

99

63

Why?

4 Which number is the odd one out?

92

10

60

30

Why?

Reasoning · Odd one out — Answer key

1. 12, 25, 98, 72 → 25 (the other three are all even)

2. 17, 29, 73, 9 → 9 (the other three are all prime numbers)

3. 72, 32, 99, 63 → 32 (the other three are all multiples of 9)

4. 92, 10, 60, 30 → 92 (the other three are all multiples of 10)
